SUMMARY

Full Stack Web Developer with a background in Project Management, Marketing, and Graphic Design and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Passionate about creating responsive websites while solving UX challenges from different angles and implementing ADA best practices.

TECHNICAL SKILLS

Languages: HTML, CSS, Javascript, Node.js.

Applications: Drupal, Wordpress, Bootstrap, Materialize, jQuery.

RELEVANT EXPERIENCE

Marketing Manager

2015 to Present

University of New Hampshire

Durham, NH

Designs, manages, and maintains the Career and Professional Success website unh.edu/career. Serves as the main point of contact and relationship manager for UNH Web and Mobile Development office. Execute all website visual design from concept to final approval. Keeps content up-to-date in real time on unh.edu/career, and optimizes SEO needs to encourage traffic and improve rankings while meeting ADA compliance and UX design best practices.

Key Accomplishments:

- Migrated unh.edu/career to new developer platform which involved reducing the number of webpages by evaluating content and navigation, restructuring based on UX best practices and resolving ADA compliance issues.
- Pivoted all work to create a new Covid-19 related webpage with little notice as an immediate response to the crisis.

Administrative Assistant

2012 to 2015

Granite State College

Concord, NH

Administrator of several softwares utilized by the School of Education, including Salesforce, Ellucian DegreeWorks, and Banner.

Key Accomplishments:

- Restructured the navigation of the granite.edu/degree-programs/post-baccalaureate-teacher-certification/ webpages to improve UX design. Oversaw the design of the modules for the online education platform blackboard.

PROJECTS

MOVIEPHOOD

Link to Github: github.com/gheptig/project-1 | **Link to Deployed Project:** gheptig.github.io/movie-phood/
